

Wednesday 16 October 2019

07:00 – 18:00	Exhibition Build Continues from Tuesday 14 October 2018	
08:30 – 17:00	Radiology Directors of Training and Clinical Supervisors Workshop	Radiation Oncology Directors of Training and Clinical Supervisors Workshop
14:00 – 18:00	Registration Desk Open	
19:00 - Late	International Speakers and Sponsors Dinner (Invitation Only)	

07:00 - 08:00	Radiology and Radiation Oncology Committee and Special Interest Group Meetings			
07:00 – 08:30	Women in Leadership Breakfast (Additional Cost) Venue: Speakers: Dr Valerie Jackson, President, RSNA			
07:30 - 18:30	Exhibition Open/e-Posters / Webcasting			
08:30 -10:00	Joint Plenary Session -			
Chair:				
Room:				
08:30	Committee Welcome			
08:35	Welcome to Country:			
08:50	RANZCR President Welcome: Dr Lance Lawler			
09:00	Doing Right with AI; Doing Right by Patients Assistant Professor Jaron Chong, McGill University, Montreal, Quebec, Canada.			
09:50	Platinum Sponsor Address: Varian			
10:00 – 10:30	Morning Tea –and Industry Exhibition/e-Posters / Webcasting			
10:30 – 12:30	Intelligence19	RADIOLOGY		RADIATION ONCOLOGY
Room		Breast Session 1	Onc MSK 1	CNS
1030	AI in Medical Imaging: Can you believe we used to examine patients? Prof Meng Law	Use of breast MR in newly diagnosed patient Dr Debra Monticiccolo <i>American College Of Radiology</i>	Characterizing Soft Tissue Tumors at MRI: What is Realistically Possible? Dr David Panicek <i>Memorial Sloan Kettering Cancer Centre</i>	Modern management of Brain metastases Dr Arjun Sahgal <i>Sunnybrook Health Sciences Centre</i>
1040				
1050				
1100	Artificial Intelligence (AI) and Breast Cancer Detection: What do those working in the field of breast cancer imaging think about mammographic image interpretation being augmented or performed by machines? Adjunct Associate Professor Helen Frazer <i>St Vincent's Hospital</i> <i>Paper#133</i>	MRI in the postoperative breast after oncoplastic surgery Prof Brkljadic	Skeletal biopsy	
1110				
1120	Ethics in AI			

1130	Prof Liz Kenny	Phase contrast tomography for breast cancer imaging: bringing a novel technology to clinical translation A/Prof Sarah Lewis The University of Sydney Paper#204	A/Prof Anthony Doyle Auckland District Health Board	A single-arm prospective cohort study to quantify the reduction in tumour perfusion for spine metastasis treated with stereotactic body radiotherapy (SBRT) Dr Balamurugan Vellayappan National University Cancer Institute Singapore Paper#191
1140		Artefacts in Contrast-Enhanced Spectral Mammography: are there differences between vendors? Mr Saish Neppalli University of Western Australia Medical School Paper#213		Vertebral fractures following stereotactic body radiotherapy for spine oligometastases Dr Hussein Abbouchie Oliver Newton-John Cancer Centre Paper#42
1150	Patient perceptions of the use of Artificial Intelligence in Diagnostic Radiology Dr Gerard Goh The Alfred Hospital Paper#217	The association of breast image reporting grading classification with reader and mammographic characteristics Dr Phuong Dung (Yun) Trieu The University of Sydney Paper#178		Dose to medium results in higher doses to vertebral body SABR targets Dr Nick Hardcastle Peter MacCallum Cancer Centre Paper#247
1200		The gist of the abnormal in mammographic images Dr Ziba Gandomkar University of Sydney Paper#245		Role of 68Ga DOTATATE Positron Emission Tomography scan in meningioma to assist target volume delineation for radiation therapy planning. Dr Johnson Lam Northern Sydney Local Health District Paper#250
1210	AI Standards and the evolving role of Clinical Radiologists Mr Mark Nevin RANZCR	Axillary ultrasound in assessment of lymph node metastasis in screen-detected breast cancers Dr Lasanka De Silva Royal Hobart Hospital Paper#140	The prevalence of 'surgical' meniscal tears in the General Practice patients over 50 Dr Dinesh Brand Adelaide MRI Paper#272	Elderly patients with Glioblastoma and good performance status may achieve equivalent median survival to younger patients when treated with EORTC-NCIC Protocol: implications for accrual into Elderly GBM protocols Dr Brendan Liu Crown Princess Mary Cancer Centre Paper#235
1220		The evaluation of iatrogenic anatomic distortion of breast tissue landmarks on follow-up MRI due to a change in breast coil Dr Camille Dunn Mater Health Paper#208		
12:30 - 13:30	Lunch – Exhibition / ePosters / Webcasting			
1330 - 1500	RADIOLOGY			RADIATION ONCOLOGY
	Obs 1	Stroke 1	OBEX, William A Cook Award	
Room				
1330	First Trimester Ultrasound: Chorions, Amnions and Embryos – Oh My! Dr Paula Woodward University of Utah School of Medicine	Imaging of TIA and Stroke: What comes after DAWN? DUSK? Prof Meng Law	The effect of implementation of structured reporting on radiologist reporting time for unenhanced CT head examinations. Dr Nicholas Begg Canterbury District Health Board Paper#37	The Tribulations of Randomized Trials of Radiotherapy vs Surgery Dr Drew Moghanaki Atlanta Veterans Affairs Medical Centre

1340	<p>Placenta Accreta Dr David Perry Auckland District Health Board</p>		<p>Retrospective review of MRI staging for rectal cancer and assessment of inter-observer agreement Dr Robert Shao Auckland City Hospital</p> <p><i>Paper#20</i></p>		
1350			<p>Do radiologists need to review abdominal ultrasound examinations reported as “normal” by the sonographer? An audit of 1000 cases at a tertiary teaching hospital Dr Yi Shen Waikato DHB</p> <p><i>Paper#55</i></p>		
1400			<p>Diagnostic yield and accuracy of image-guided biopsy in musculoskeletal lesions Dr Hayley Wong Auckland City Hospital</p> <p><i>Paper#62</i></p>		
1410			<p>Factors associated with change in management due to inclusion of pre-operative staging PSMA PET CT in patients with high risk prostate cancer. Dr Gregory Tarr Middlemore Hospital</p> <p><i>Paper#114</i></p>		
1420	<p>Pre-eclampsia screening Dr Emmeline Lee Western Ultrasound for Women</p>	<p>Assessment of the stroke patient: What does the interventional physician need to know? Dr David Sacks Reading Hospital</p>	<p>What is the utility of Gallium-DOTATATE PET/CT for the detection of additional small bowel lesions in patients with neuroendocrine tumours? Dr Andrew McFetridge Auckland Radiology Registrar Trainees</p> <p><i>Paper#122</i></p>		
1430			<p>Can lesion SUVmax value on Gallium DOTATATE PET/CT determine neuroendocrine tumour grade? Dr Andrew McFetridge Auckland Radiology Registrar Trainees</p> <p><i>Paper#123</i></p>		<p>Functional Avoidance planning allows for lung dose reduction in radiotherapy of lung cancer Dr Katherina Farr Aarhus University Hospital</p> <p><i>Paper#91</i></p>
1440					<p>Lung stereotactic body radiotherapy (SBRT): outcomes from a large cohort of patients treated at a single institution. Dr Sarah Bergamin Northern Sydney Cancer Centre</p> <p><i>Paper#239</i></p>
1450			<p>Assessing Tumour Centrality in Lung Stereotactic Ablative Body Radiotherapy (SABR): The Effects of Variations in Bronchial Tree Delineation and Potential for Automated Methods Mr Wsam Ghandourh University of New South Wales</p> <p><i>Paper#192</i></p>		

15:00 - 15:30	Afternoon Tea – Exhibition / ePosters / Webcasting			
15:30 – 17:00	RADIOLOGY			RADIATION ONCOLOGY
	Lung nodules	Stroke 2	Ultrasound	
<i>Room</i>				
15:30	Nodular interstitial Lung disease Dr Sharyn MacDonald The suspicious lung nodule: The spectrum Prof Michelle Ginsberg Memorial Sloan Kettering Cancer Centre	Ischemic stroke trials data Prof David Sacks Reading Hospital	US Thyroid/TIRAD Kate O'Connor	Methods Radiation Oncology Faculty Forum
16:00		A retrospective analysis of additional time required to perform and generate CT cerebral perfusion analysis in patients presenting with acute stroke Dr Sally Ayesa Royal North Shore Hospital Paper#111	A retrospective study on the correlation of TI-RADS score and cytology obtained at FNA biopsy Dr Dinesh Brand Adelaide MRI Paper#271	
16:10		A review of the effectiveness of a 'grey blanket' protocol for workflow improvement in acute ischemic stroke with large vessel occlusion. Dr Himanshu Thalagala Royal Brisbane And Women's Hospital Paper#134	US Neck Lumps Dr Kate O'Connor	
16:20		To determine the rates of acute intracranial haemorrhage after head minor trauma in the elderly. Dr Melissa Rogers SA Medical Imaging Paper#181		
16:30				
16:40				
16:50	Incidental findings on CT Chest Dr Renae Thiessen	The reliability of CT perfusion in predicting 3-month morbidity and mortality in stroke patients undergoing endovascular clot retrieval for acute internal carotid artery occlusion Dr Shanalie Dias Queensland Health Paper#146	Ultrasonographic findings in renal parenchymal disease with histopathological correlation; a hospital based cross-sectional observational study. Dr Shishir Dahal University Of Otago, Christchurch Paper#112	
17:00 - 18:30	Welcome Reception Exhibition Area, Grand Ballroom			
19:00 - Late	Past Presidents Dinner (Invitation Only)	Faculty of Radiation Oncology Dinner Sponsored by Varian		Clinical Radiology Quiz Night

07:00 - 08:00		Radiology and Radiation Oncology Committee and Special Interest Group Meetings		
08:15 - 18:00		Exhibition / ePosters / Webcasting		
08:30 - 10:00		RADIOLOGY		COMBINED RADIOLOGY & RADIATION ONCOLOGY
Obs 2		MSK MR	Imaging in occupational lung disease due to exposure to dust from engineered stone	Combined Radiology & Radiation Oncology Session on Spine MDT (08:30-10:00)
Room				
08:30	Adnexal Masses: Lookalikes and Pitfalls Dr Paula Woodward <i>University of Utah School of Medicine</i>	MRI of the Knee: Cruciate ligaments and the posterior corners Dr Andrew Grainger <i>Leeds Teaching Hospitals</i>		
08:40				
08:50				
09:00	Imaging the Subfertile Dr Emmeline Lee <i>Western Ultrasound for Women</i>	Injury patterns in e-scooter trauma Dr Thomas Pearson <i>Sunshine Coast University Hospital</i> <i>Paper#232</i>	There has been an increased in the incidence of disease in workers exposed to the dust from high silica content within engineered stone. Imaging has a central role in the diagnosis and monitoring of occupational lung diseases including disease resulting from exposure to engineered stone. The role of Radiologists in occupational lung disease is to use their expert knowledge to detect and characterise the pattern(s) of any abnormalities to aid in diagnosis. Accurate diagnosis of occupational lung disease with low inter-reader variability is highly desirable for clinical, research and medicolegal reasons.	Spine sbrrt current state of the art Dr Arjun Sahgal <i>Sunnybrook Health Sciences Centre</i>
09:10		Evaluating the use of plain film radiography for identifying cervical spine trauma in the emergency department Dr Chris-Tin Cheng <i>Barwon Medical Imaging, University Hospital Geelong</i> <i>Paper#64</i>		
09:20		MRI Cervical Spine in Trauma: a retrospective single centre audit of cervical spine injuries in blunt trauma patients with persistent tenderness and or neurology following a normal CT. Dr Grant Foster <i>Barwon Health</i> <i>Paper#210</i>		
09:30	Lipiodol Flushing under Ultrasound Guidance – Does it increase pregnancy rates in subfertile women? Dr Emmeline Lee <i>Western Ultrasound For Women</i> <i>Paper#151</i>	MRI of the Ankle: The tendons and ligaments Dr Andrew Grainger <i>Leeds Teaching Hospitals</i>		Spine MDT/Cases/Role of IR Dr Mark Coates <i>Canterbury District Health Board</i>

09:40	<p>Acute Ovarian Events - A Pictorial Essay Dr Rose Mark <i>WA Radiology Training</i></p> <p><i>Paper#261</i></p>			
09:50	<p>Lipiodol HSG - Back to the future Dr Jane Peart <i>Auckland Radiology Group</i></p> <p><i>Paper#101</i></p>			
10:00 - 10:30	Morning Tea - Exhibition / ePosters / Webcasting			
10:30 – 12:30	RADIOLOGY		RADIATION ONCOLOGY	
	Branch of Origin Session		Varian Prize	
Room			<p>Postoperative hypofractionated stereotactic radiotherapy (HSRT) for intracranial metastases: Relationship between dose and local control. Dr Shanker Mihir <i>Queensland Health</i></p> <p><i>Paper#211</i></p>	
			<p>Certainty Trumps Convenience: Most patients do not desire hypofractionated prostate cancer radiation therapy when involved in shared decision-making Dr Tracy Lim <i>Northern NSW Cancer Insititute</i></p> <p><i>Paper#263</i></p>	
			<p>To assess the temporal impact of the publication of guidelines and randomised evidence on the adoption of hypofractionated whole breast radiotherapy for early-stage breast cancer Dr Kylie Kyung Yoon Jung <i>Canberra Region Cancer Centre</i></p> <p><i>Paper #44</i></p>	
			<p>Neoadjuvant stereotactic radiosurgery: an evolution in the management of brain metastases Dr Cristian Udovicich <i>Gippsland Radiation Oncology</i></p> <p><i>Paper#125</i></p>	
			<p>Analysis of mortality following palliative radiotherapy using 30 day mortality as an indicator of harm. Dr Mollie Kain <i>Christchurch Hospital</i></p> <p><i>Paper#71</i></p>	
			<p>Body mass index and local control in breast cancer patients treated with breast conservation. A database study utilising the New Zealand Breast Cancer registry. Dr Vikash Patel <i>Auckland City Hospital</i></p> <p><i>Paper#189</i></p>	

		<p>Understanding patients' willingness to adopt use of smartphone applications (apps) in routine radiation oncology care Dr Lilly Shen <i>Olivia Newton John Cancer Centre</i></p> <p><i>Paper #98</i></p>
		<p>Use of stereotactic radiosurgery and outcomes following radiotherapy for brain metastases in patients with primary lung cancer – an Australian population-based study Dr Therese Kang <i>Royal Hobart Hospital</i></p> <p><i>Paper #132</i></p>
		<p>The diminishing role of neck dissection in node positive HPV-associated oropharyngeal cancer following (chemo)radiotherapy Dr Christopher Williams <i>The University of Queensland</i></p> <p><i>Paper #249</i></p>
		<p>Pattern of use of intensity modulated radiotherapy (IMRT) for breast radiation therapy in Victoria from 2012 to 2017 Dr Wee Loon Ong <i>Olivia Newton John Cancer Centre</i></p> <p><i>Paper#107</i></p>
		<p>PSMA-PET/CT-guided stereotactic body radiotherapy (SBRT) for recurrent oligo-metastatic prostate cancer Dr Wee Loon Ong <i>Olivia Newton John Cancer Centre</i></p> <p><i>Paper#108</i></p>
		<p>Are we Choosing Wisely® in radiation oncology – findings from Victorian population-based study Dr Wee Loon Ong <i>Olivia Newton John Cancer Centre</i></p> <p><i>Paper#105</i></p>

12:30 - 13:30 Lunch – Exhibition / ePosters / Webcasting

12:30 - 13:30 Baker Rouse Hare Lunch (Invitation Only)

13:30 – 14:20 RANZCR Annual General Meeting
Venue:

14:30 – 15:00	RADIOLOGY			RADIATION ONCOLOGY	
	Breast Screening	Lung Screening	Training and Assessment Reform for Clinical Radiology	Breast	

Room

14:30	<p>Screening for Breast Cancer in Women of Higher than Average Risk Dr Debra Monticiccolo <i>American College of Radiology</i></p>	<p>Lung Cancer Screening in an Oncologic Population Prof Michelle Ginsberg</p>	<p><i>The Training and Assessment Review (TAR) and subsequent development of a new training program has been a major piece of work occurring over the last three years.</i></p> <p><i>The Clinical Radiology Steering Committee,</i></p>	<p>Impact of randomised controlled trial data and clinical guidelines on radiotherapy patterns of care in early breast cancer patients over a 15-year period at a tertiary hospital. Dr Joseph Chan <i>Royal North Shore Hospital</i></p> <p><i>Paper#86</i></p>
14:40				<p>Volumetric Arc Therapy: A viable option for Right-Sided Breast and Regional Nodal Irradiation in conjunction with Deep Inspiration Breath Hold Ms Emily Holt <i>Genesis Cancer Care</i></p>

			with assistance of eight (8) working groups, have completed the draft new training program, which is to be launched in 2021.	Paper#77
14:50			This session will provide College members with an overview of the new training program, particularly the key changes to the curriculum and assessment, and how that might impact the training on the daily basis.	<p>StrataXRT is as effective as Mepitel Film in reducing the incidence of moist desquamation in breast cancer patients undergoing post-mastectomy radiotherapy</p> <p>Mrs Karen Benstead Austin Health</p> <p>Paper#73</p>
15:00 - 15:30	Afternoon Tea – Exhibition / ePosters / Webcasting			
15:30 – 17:00	RADIOLOGY			RADIATION ONCOLOGY
	Lung 1	Interventional Radiology	Abdo	Particle Therapy Session
Room				
		Gerard Goh		Chair: Assoc Prof Verity Ahern
15:30	<p>Complications in treatment of Thoracic Tumors Prof Michelle Ginsberg Memorial Sloan Kettering Cancer Centre</p>	<p>The future of Interventional Radiology is a forum where Interventional Radiologists, Interventional neuroradiologists and radiologists who perform procedures to come together to learn about the state of IR in Australia and New Zealand. There will be talks comparing the state of IR and INR internationally and comparisons drawn to the local environment.</p> <p>*if applicable:*</p>	<p>Efficacy of splenic embolisation and other non-operative management compared with surgical treatment of splenic injuries: A retrospective analysis. Mrs Amelia Benard University Of Queensland</p> <p>Paper#139</p>	<p>Particle Therapy Developments in Australia Assoc Prof Verity Ahern Sydney West Radiation Oncology Network</p>
15:40		<p>An update from the Interventional Radiology Committee from the college as well as senior office bearers (eg the Dean of the Faculty of Clinical Radiology and the RANZCR president).</p> <p>The session will conclude with an open discussion forum where participants can discuss Interventional Radiology in Australia and New Zealand and to discuss where IR is headed.</p>	<p>RO resectability in pelvic exenteration – what features on pre-operative imaging predict operative success? Dr Matthew Daley Royal Brisbane And Women’s Hospital</p> <p>Paper#270</p>	<p>The concept of model-based indications for proton therapy Prof Hans Langendijk</p>

15:50	<p>Repeat Microwave ablation for Lung Cancer – How many is too many? Mrs Amelia Benard <i>University Of Queensland</i></p> <p><i>Paper#137</i></p>	<p>Presenters: Dr Gerard Goh, Dr Peter Mitchell and Dr Nick Brown</p>	<p>Explore guidelines into the surveillance and management of pancreatic cysts Dr Camille Dunn <i>Mater Health</i></p> <p><i>Paper#207</i></p>		
16:00	<p>Clinical outcomes of CT-guided lung biopsy and diagnostic agreement with bronchoscopic tissue biopsy in suspicious lung lesions Dr Camille Dunn <i>Mater Health</i></p> <p><i>Paper#205</i></p>		<p>Diagnostic adequacy and complication rates of non-targeted, ultrasound guided percutaneous liver biopsies at a tertiary teaching hospital. Dr Angela Hoskins <i>Fiona Stanley Hospital</i></p> <p><i>Paper#53</i></p>		
16:10	<p>A Systematic Review and Meta-Analysis of Modifiable Risk Factors during CT-Guided Lung Biopsies to Reduce the Risk of Pneumothorax and Chest Drain Insertion Dr Ya Ruth Huo <i>Bankstown-Campbelltown Hospital</i></p> <p><i>Paper#3</i></p>		<p>Utility of Dual Energy CT with iodinated oral contrast in the classification and localisation of acute bowel obstruction Dr John Keller <i>Medical Imaging Princess Alexandra Hospital</i></p> <p><i>Paper#251</i></p>		<p>International Indications for Particle Therapy: a Systematic Review Dr Eun Ji Hwang <i>Sydney West Radiation Oncology Network</i></p> <p>Paper #60</p>
16:20	<p>Post Biopsy Manoeuvres to Reduce Pneumothorax Incidence in CT-Guided Transthoracic Lung Biopsies: A Systematic Review and Meta-Analysis Dr Ya Ruth Huo <i>Bankstown-Campbelltown Hospital</i></p> <p><i>Paper#2</i></p>		<p>Radiological measurement of skeletal muscle index to assess post operative outcomes in gastrectomy patients Dr Arjna Kanagarajah <i>Princess Alexandra Hospital</i></p>		<p>A bi-national registry for particle therapy Dr Hien Le</p>
16:30	<p>Which patients and lung lesions have the highest rates of pneumothorax in CT-Guided Lung Biopsies? A Systematic Review and Meta-Analysis Dr Ya Ruth Huo <i>Bankstown-Campbelltown Hospital</i></p> <p><i>Paper#8</i></p>		<p>Ultrasound quality in HCC screening for patients with chronic liver disease Dr Sandra Lin <i>Austin Health</i></p> <p><i>Paper#227</i></p>		<p>Consumer engagement and education in particle therapy Dr Peter Gorayski <i>Royal Adelaide Hospital</i></p>

16:40	<p>Trends in CT-Guided Lung Biopsy Requests in a Tertiary Hospital. Has Endobronchial Ultrasound (EBUS) changed anything? Dr Hiu Tung Amy Lam <i>Princess Alexandra Hospital</i></p> <p><i>Paper#193</i></p>		<p>Hepatic steatosis on abdominal ultrasound studies in the emergency department: prevalence and follow-up Dr Marcus Kok <i>Eastern Health</i></p> <p><i>Paper#143</i></p>	<p>Debate: Personalising radiation therapy through imaging and “omics”: particle therapy is essential Affirmative: Hans Langendijk and Liz Kenny Negative: Gerry Hanna and Guiseppe Sasso Moderator: Michael Jackson</p>
16:50	<p>Thoracic duct embolisation in low volume centres: an effective first line intervention for traumatic chylothorax Dr Thomas Pearson <i>Sunshine Coast University Hospital</i></p> <p><i>Paper#231</i></p>		<p>Does the common bile duct dilate following cholecystectomy? A systematic literature review Dr Hamish Smith <i>Townsville Hospital</i></p> <p><i>Paper#27</i></p>	<p>Close Dr Michael Penniment</p>
18:00 – 19:00	<p>Annual Ceremony and Nisbet Oration <i>Venue:</i></p>			
19:00 – 21:30	<p>Annual Ceremony Reception <i>Venue:</i></p>			
21:00 – 24:00	<p>Trainee and Junior Radiologists Reception <i>Venue:</i> Transport available via coach to/from venue</p>			

Saturday 19 October 2019

06:00 – 07:30	Targeting Cancer Fun Run/Walk					
07:00 - 08:00	Radiology and Radiation Oncology Committee and Special Interest Group Meetings					
08:00 - 17:30	Exhibition / ePosters / Webcasting					
08:30 - 10:00	RADIOLOGY				RADIATION ONCOLOGY	
	PET CT	Reporting	Stroke 3	Trainee Education Day	Trainee Education Day	Quality Improvement/RT access
Room				Crowne Plaza	Crowne Plaza	
08:30	<p>Corpus Striatum 18FDG-PET Uptake Asymmetry in Prodromal Corticobasal Syndrome is Greatest in the Putamen Mr Abhishta Bhandari James Cook University</p> <p><i>Paper#51</i></p>	<p>How the General Radiologist should report Oncology scans Dr David Lisle Brisbane Private Imaging</p>	<p>Stroke Centres David Sacks</p>			<p>The Australian Clinical Dosimetry Service development and deployment program of advanced audits. Dr Ivan Williams Australian Radiation Protection and Nuclear Safety Agency</p> <p><i>Paper#202</i></p>
08:40	<p>CONSULT – A Fully Automated Imaging Pipeline for Identifying the Optic Radiation Dr Lee Reid CSIRO</p> <p><i>Paper#240</i></p>					<p>The Australian Clinical Dosimetry Service: A summary of audit outcomes, recommendations to radiotherapy clinics and operational impacts. Dr Ivan Williams Australian Radiation Protection and Nuclear Safety Agency</p> <p><i>Paper#162</i></p>
08:50	<p>OPTICAL COHERENCE TOMOGRAPHY (OCT) as a visualisation aid to Radio Frequency (RF) catheter ablation for cardiac arrhythmias: Development and proof of concepts, equipment and catheters in live animals (sheep) up to a level of "First in Human" trials of this A/Prof Peter Pratten RANZCR</p> <p><i>Paper#15</i></p>			<p>Structured Reporting: a success story in Oncology Reporting Dr David Panicek Memorial Sloan Kettering Cancer Centre</p>		
09:00	<p>Utility of Positron Emission Tomography Imaging in the Diagnosis of Chronic Q fever- A Review of the Literature Dr Rozanne Visvalingam Logan Hospital</p> <p><i>Paper#257</i></p>				<p>Improving access to RO care in a chaotic world Dr D Beyer 09:00-09:30</p>	
09:10	<p>Up, up and away: A comprehensive review of PET utilisation in Australia Dr Crishan Haran</p>		<p>Invited Speaker TBC Ben McGuiness</p>			

Saturday 19 October 2019

09:20	<p>Queensland Health Paper#40</p> <p>Point-of-Care Ultrasound (POCUS) in cardiac arrest: a descriptive study of practice in South East Queensland Dr Melad Syed Gold Coast University Hospital</p> <p>Paper#50</p>					
09:30	<p>Non-ionising radiation applications in Radiodiagnosis and Interventional Radiology, with potential to complement or supplant traditional ionising x-ray imaging: Current and potential medical applications of Optical Coherence Tomography (OCT) and Terahertz A/Prof Peter Pratten RANZCR</p> <p>Paper#14</p>	<p>Effect of cancer characteristics on radiologists' confidence in reporting the cancer Kriscia A Tapia University Of Sydney</p> <p>Paper#248</p>				<p>Radiotherapy underutilisation in New South Wales, Australia and its impact on local control and survival Dr Roya Merie Liverpool Hospital</p> <p>Paper#120</p>
09:40	<p>OPTICAL COHERENCE TOMOGRAPHY (OCT) as a visualisation aid to Radio Frequency (RF) catheter ablation for cardiac arrhythmias: Development and proof of concepts, equipment and catheters in live animals (sheep) up to a level of "First in Human" trials of thi A/Prof Peter Pratten RANZCR</p> <p>Paper#15</p>	<p>"It's all Greek to me, Squire!". The language of medicine as applied to Radiology. 09:50	<p>Evaluating the role of 68Ga-PSMA PET/CT in primary staging of prostate cancer: a regional perspective Miss Jemima Mckenzie The University of Adelaide</p> <p>Paper#262</p>	<p>The impact of "appropriate" vs "inappropriate" diagnostic Computerised Tomography imaging on patient management. Dr Emmanuel Jesulola Charles Sturt University</p> <p>Paper#24</p>				<p>Improving compliance with Radiation Oncology Practice Standards through Team Audit and Quality Assurance Meetings Dr Tegan Hardcastle-Fowler Sydney West Radiation Oncology Network</p> <p>Paper#222</p>
10:00 - 10:30	Morning Tea – Exhibition / ePosters / Webcasting					
10:30 - 12:30	RADIOLOGY			RADIATION ONCOLOGY		
Room	MSK Onc	Vascular	Trainee Education Day	Trainee Education Day	GU/H&N	
			Crowne Plaza	Crowne Plaza		
10:30	Secondary Prevention of Ischaemic Heart Disease in Rural Australia	Bone Tumour Imaging Clinton Pinto	Vascular US in the era of CTA and MRA			Anatomical and dosimetric assessment of the prostate apex: A comparison of image-guided transperineal ultrasound (TPUS) to conventional

	Dr Lisa Hunt Redcliffe Hospital Paper#225	Auckland Radiology Group/Middlemore Hospital	Prof Brkljadic			computed tomography (CT) simulation. Dr Shanker Mihir Queensland Health Paper#4	
10:40	CONSULT – A Fully Automated Imaging Pipeline for Identifying the Optic Radiation Dr Lee Reid CSIRO Paper#240					The use of Fiducial Markers in post prostatectomy radiation therapy (PPRT): Can we reduce radiation dose exposure to critical rectal and bladder volumes? Dr Grace Ong Olivia Newton John Cancer Centre Paper#32	
10:50	Developments in educational material for radiation protection of patients and staff Dr Peter Thomas Australian Radiation Protection And Nuclear Safety Agency Paper#260		Preventing Sudden Vasculature Death Tim Buckenham			Is an interim PSA valuable during salvage radiotherapy following a radical prostatectomy for prostate cancer? Dr Michael Cardoso Liverpool Hospital Paper#33	
11:00	Incidence and grade of pneumonitis in advanced non- small cell lung cancer (NSCLC) patients treated with anti-PD1 antibodies. Dr Mayuran Saththianathan Westmead Hospital Paper#56					Validation of the prognostic ability of the five tiered ISUP grade groups for prostate cancer treated with definitive dose escalated external beam radiation treatment in a contemporary Australian population Dr Jonathan Toby Royal North Shore Hospital Paper#252	
11:10	Understanding bubble-like subsolid pulmonary lesions on CT- a case series Dr Himanshu Thalagala Royal Brisbane And Women's Hospital Paper#109			Are junior doctors ready to support the uptake of interventional radiology? Dr Michelle Foo Austin Health Paper#100			FDG-PET parameters predict for recurrence in anal cancer – results from a prospective, multicentre clinical trial Dr Michael Jones Royal Hobart Hospital Paper#274
11:20	Development of a new Code for Radiation Protection in Medical Exposure in Australia Dr Peter Thomas Australian Radiation Protection And Nuclear Safety Agency Paper#72			Australian Surgical and medical trainees' Perspective on Interventional Radiology Education Dr Michelle Foo Austin Health Paper#95			A Prospective, Multi-centre trial of Multi-parametric MRI as a Biomarker in Anal Carcinoma Dr Michael Jones Royal Hobart Hospital Paper#273
11:30	Developments in the Diagnostic Reference Level program Dr Peter Thomas Australian Radiation Protection And Nuclear Safety Agency Paper#223	Characterizing and Staging Bone Tumors at MRI Dr David Panicek Memorial Sloan Kettering Cancer Center	Women in Interventional Radiology – Exploring Australia's Gender Gap Dr Michelle Foo Austin Health Paper#94			The impact of dose to medium on target volume coverage in head and neck radiotherapy Dr Nick Hardcastle Peter Mccallum Cancer Centre Paper#194	
11:40	Tailoring ct pulmonary angiogram to different clinical scenarios Dr Nicholas Chen					Gross tumour volume and circulating tumour cells changes during radiotherapy in patients with head and neck cancer Dr Sweet Ping Ng	

Saturday 19 October 2019

	<i>Prince Of Wales Hospital</i> <i>Paper#160</i>					<i>Peter Mccallum Cancer Centre</i> <i>Paper#102</i>	
11:50	Localised persistent pulmonary interstitial emphysema in a premature infant: case report and review of the literature Dr Kosuke Kato <i>Gold Coast University Hospital</i> <i>Paper#21</i>					Changes in apparent diffusion coefficient (ADC) in serial weekly MRI during radiotherapy in patients with head and neck cancer Dr Sweet Ping Ng <i>Peter Mccallum Cancer Centre</i> <i>Paper#103</i>	
12:00	Friend, Foe or Fake? Lymph node mimics in the head and neck Dr Jessica Van Den Heuvel <i>The Royal Melbourne Hospital</i> <i>Paper#115</i>					Sarcopaenia: prevalence, predictive validity, and prognostic utility in mucosal head & neck cancer patients who received curative-intent chemotherapy. Mr Kieran Ballurkar <i>Northern Sydney Cancer Centre</i> <i>Paper#246</i>	
12:10	Utility of the 'Swallow Tail' Sign in Parkinson's Disease Patients – A Retrospective Concordance Study. Dr Brylie Mcallister <i>Ubc Hospital</i> <i>Paper#12</i>		Title to be confirmed Dr Lily Wang			Polymeric nanoparticles for targeted cancer cytotoxicity and radiosensitization Dr David Chang <i>UNSW/Prince of Wales Hospital</i> <i>Paper#237</i>	
12:20	Spinal cerebrospinal fluid (CSF) leaks Dr David Wang <i>University Of Cincinnati</i> <i>Paper#48</i>					Quantitative results from the Tracker Study: Feasibility of real-time activity and weight monitoring during routine care of oncology patients Dr Thilo Schuler <i>Northern Sydney Cancer Centre</i> <i>Paper#195</i>	
12:30 - 13:30	Lunch – Exhibition / ePosters / Webcasting						
12:30 - 14:00	Presidential Lunch (Invitation Only)						
13:30 – 15:00	RADIOLOGY				RADIATION ONCOLOGY		
	Emergency Radiology		Prostate	Trainee Education Day	Trainee Education Day	Re-irradiation	
Room				Crowne Plaza	Crowne Plaza		
13:30	AI in Emergency Radiology - increasing efficiency and reducing errors Prof Meng Law Melbourne	Pitfalls in the Imaging of Arthritis Dr Andrew Grainger <i>Leeds Teaching Hospitals</i>	Prostate MRI A/Prof Tom Sutherland <i>St Vincent's Hospital</i>			Re-Irradiation – Pearls and General Considerations Dr Drew Moghanaki	
13:40							Brain Dr Arjun Sahgal
13:50							
14:00	Applications of Spectral CT in Emergency and Trauma	Axial Spondyloarthropathy Dr Bruno Giuffre					

Saturday 19 October 2019

14:10	Ms Katrina Read, Baltimore, USA	Royal North Shore Hospital	PSMA PET/CT Dr Remy Lim Auckland City Hospital & Mercy Radiology			
14:20						Thorax Dr Drew Moghanaki
14:30	Trauma Patient not waking up Day 4: MRI brain interpretation. Dr Andrew Dixon, Melbourne	Marty McFly has gouty tophi – The use of Dual Energy CT in the diagnosis of gout Dr. Christopher Newman Alfred Health Paper#59	Trends in prostate cancer imaging: a five-year experience encompassing the introduction of PSMA PET and the demise of the bone scan. Dr Crishan Haran Queensland Health Paper#16			
14:40		A systematic review and meta-analysis of RCTs evaluating the long-term effects of intra-articular hyaluronic acid in comparison with intra-articular corticosteroid in the treatment of knee osteoarthritis Dr Maria Sathi Department of Medical Imaging, Royal Brisbane And Women's Hospital Paper#35	A prospective intra-individual blinded comparison of 18F-PSMA-1007 and 68Ga-PSMA-11 PET/CT imaging in patients with confirmed prostate cancer Dr Brook Gulhane Queensland Health Paper#218			Pelvis Dr Drew Moghanaki
14:50			Prospective study of 18F-PSMA-1007 PET/CT interobserver agreement for prostate cancer Dr Maciej Debowski Royal Brisbane And Women's Hospital Paper#243			
15:00 - 15:30	Afternoon Tea – Exhibition / ePosters / Webcasting					
15:30 - 17:00	RADIOLOGY			RADIATION ONCOLOGY		
	Faculty Forum			Incident Reporting Session		
Room						
				QIC incident reporting		Late Breaking Abstract TROG 99.03 Prof Michael McManus
						Training and Assessment Reform Session Radiation Oncology (60 minutes) Chair: Ass Prof Margot Lehman
19:00 – Late	Annual Dinner					

Sunday 20 October 2019

Radiology and Radiation Oncology Committee and Special Interest Group Meetings				
08:30 - 12:30	Exhibition / ePosters / Webcasting			
09:00 - 10:00	RADIOLOGY		RADIATION ONCOLOGY	
	Changes to your medical registration requirements: Are you prepared?	Successful integration of evidence-based clinical guidelines into decision support tools. Workshop		Global RT
Room				
09:00	<p>An expert panel, facilitated by the Chief of Professional Practice, will provide up-to-date information on the MBA's changes to registration requirements for doctors. These changes will transform the way doctors maintain their medical registration by shifting the focus to tailored professional development activities that aim to enhance patient safety.</p> <p>The expert panel will interactively discuss the changes with delegates, provide specific detail on how the College is preparing for these changes and importantly supporting our members through the process.</p>	<p>The integration of evidence-based clinical guidelines into decision support tools provides clinicians (and referrers) with real time access to clinically-justified recommendations for appropriate imaging investigations.</p> <p>The Royal College of Radiologists (RCR) is currently trialling an integrated CDS software package, which includes pilot sites in Australia. The iRefer CDS package incorporates The RCR iRefer radiology referral guidelines into a bespoke IT solution from MedCurrent.</p>	<p>Imaging of fetal brain Dr Elain Kan <i>Hong Kong College of Radiologists</i></p>	<p>Asia Pacific Radiation Oncology Special Interest Group (APROSIG) Dr Mora Mel <i>National Cancer Centre</i></p> <p><i>Paper #276</i></p>
09:10				
09:20				
09:30			<p>Title to be confirmed (Paeds Neuro) Dr Lily Wang</p>	<p>Facilitating the implementation of 3D conformal radiotherapy in Mongolia: the APSIG – National Cancer Centre Collaboration Dr Eng-Siew Koh <i>Liverpool Hospital</i></p> <p><i>Paper#281</i></p>
09:40				
09:50				
10:00 - 10:30	Morning Tea – Exhibition / ePosters / Webcasting			
10:30 - 12:30	RADIOLOGY		RADIATION ONCOLOGY	
Room				
1030				<p>The Inconvenient Truth of the SABR Induced Pulmonary Cicatrix (1030-1100) <i>Dr Drew Moghanaki</i></p>
1040				
1050				
1100				<p>Faculty of Radiation Oncology 2018 Workforce Census Associate Prof John Leung <i>RANZCR</i></p> <p><i>Paper#6</i></p>
1110				<p>Interventions to assist career, professional and personal development for Radiation Oncologists within GenesisCare Dr Chelsie O'Connor</p>

Sunday 20 October 2019

				GenesisCare
				Paper#259
1120				Qualitative Research Exploring Communication and Collaboration in Radiation Oncology Dr David Levy University of Sydney
1130				Paper#161
1140				Engaging patients, Survivors & Caregivers on Twitter Dr Drew Moghanaki Atlanta Veterans Affairs Medical Centre
1150				MBA Transition
1200				
1210				
1220				
12:30			Meeting Close
